To the Public**

On a number of occasions lately out-of-town customers have called our attention to the fact that they have been allowed to confuse the identity of the Alvarado Bottling Co., with that of other bottling houses in this section.

We wish to announce that we are in no way connected with any other bottling house, and we desire to protect the public against confusion which might result from any apparent similarity of names. We would call the attention of our friends especially to the fact that we control the mineral water in Coyote Canyon and that no Coyote Springs Min-  
eral water is genuine except that bottled by us.For the best saddle horses in the
